

## Rebound Free Mini Injury Assessment

Rebound Physical Therapy and Sports Rehabilitation is excited to offer DFSC athletes an array of sports medicine services. Sometimes small, seemingly insignificant aches and pains can lead to more serious injuries. Our hope is to prevent them from becoming more serious. With that in mind, Rebound is opening their two clinic locations (N. Scottsdale & Carefree) for DFSC athletes to schedule injury assessment/evaluations and receive recommendations at no charge. We do our best to work the athletes into the schedule the same day if possible. Please call to schedule and tell the receptionist you are a Desert Elite athlete.

## PHYSICAL THERAPY

The staff at Rebound has notable expertise in sports injury assessment and will assist DFSC athletes in managing their injuries at home, rehab in our clinic, or refer them to the appropriate medical provider whether it is the athlete's family physician, or other medical professional. If the athlete needs rehab our offices accept most insurance plans. We will call your insurance company to verify your insurance and inform you of what your policy covers.

## SPORTS CONDITIONING

Soccer specific conditioning programs and consultation are also available at both Rebound sites.

## ABOUT REBOUND

Rebound Physical Therapy, a family owned private practice, has proven dedication to supporting the North Scottsdale community over the last 10 years. They have carefully developed an impressive staff at Rebound with notable expertise (1000s of hours) in sports injury assessment/evaluation, treatment and triage with licensed personnel and cumulative experience of over 45 years in musculoskeletal/orthopedic medicine.
